

# CERTIFICATE OF CONFORMITY

Certificate No.:  
C683108 Rev. 1.0

Initial certification date:  
2021-08-13

Validity:  
2024-08-13 – 2029-08-13

This is to certify that the welding operations and associated activities which influence the integrity of welds of:

## **MOSTÁRNA Lískovec CZECH s.r.o.**

Halasova 2904/1, 703 00 Ostrava - Vítkovice, Czech Republic

has been found to conform to the quality requirements for fusion welding of metallic materials in the standard:

**ISO 3834-2:2021**

This certificate is valid for the following scope:

**Production of steel bridges and structures.**

**Production of engineering parts for the mining and processing industries.**

For a description of the welding activities see appendix on this Certificate.

Place and date:  
**Barendrecht, 2025-08-21**

For the issuing office:  
**DNV Business Assurance B.V., The Netherlands**

**Bjørn Spongsveen**  
Management Representative

## Appendix to Certificate

### Scope of activities

|                                                                                                                          |
|--------------------------------------------------------------------------------------------------------------------------|
| <b>1 – Type of product(s):</b>                                                                                           |
| Production of steel bridges and structures.<br>Production of engineering parts for the mining and processing industries. |
| <b>2 – Product standard(s) or alternative standard(s) (see EN ISO 3834-5):</b>                                           |
| EN 13084-7:2012 and client specification                                                                                 |
| <b>3 – Parent material group(s) (according CEN ISO/TR 15608)</b>                                                         |
| 1.1, 1.2, 2.1, 2.2, 3.1, 3.2, 8.1                                                                                        |
| <b>4 – Welding and allied processes (according ISO 4063)</b>                                                             |
| 121, 135, 138, 783                                                                                                       |
